All rights of republication of special despatches herein are also reserved.

Entered as second-class matter May 1, 1916, at the post office at St. Johnsbury, Vermont, under the act of March 3, 1879.

WEDNESDAY, AUGUST 11, 1920

The "good looking" school teacher finds it easy to get a job, but the superintendent usually soon has to fill her place while the wedding bells ring.

Hon. Bourke Cockran will make some informal remarks this evening at 8 o'clock sharp, at the Lawn Party on the grounds of St. Aloysius Church.

## Daily Paper Cheers Boys at Camp Devens

(Continued from Page 1)  
out with the boys anytime. Yesterday's story carried the name of Charles Flint being nearly overcome by heat. The first name should have been Walter. Fortunately today none of the men "dropped." This fact was due probably to the change in the weather, it being quite comfortable outside.

Among those who have reported sick since the company arrived in camp are Private George H. Morin, sore foot; Corporal Gordon Shuffelt, sore fingers; Sergeant James Jones, Weston Rankin, Leonard Currier, Melvin Kelley, Edwin Camp and C. E. Turner and Joseph W. Akin, and Sergeant Rufus Percy. Most of these men were ill from the effects of the inoculation for typhoid fever which they received Monday afternoon. Some were affected worse than others.

Corporal Rudolph Bigelow has been appointed mail clerk for the entire First Vermont Regiment and of course is one of the most popular men in all of the seven companies. "Buster" has his motorcycle with him at muster and is the best fitted man for the job for this reason. He makes several trips each day to the general camp postoffice getting the daily mail and depositing for mailing the company outgoing mail. By far the most popular piece of mail coming in is a bundle of Caledonian-Records, which are distributed free to every man in both Companies L and D. This paper, publishing all of the news from Northeastern Vermont gives the boys a fine chance to keep in touch with the happenings at home.

There are eighty-eight men attending the annual encampment, nineteen of the boys having been left behind. Those that failed to make the trip were excused for various reasons, some because they were sick, and others because of business interests. They are James McCarten, Charles Mayo, David Camp, George Mitson, Westley Lanpher, Harold Keith, Leo Lahar, H. Bowman, George Wells, Howard Hackett, John Kim, Oscar Berry, Sam Davis, Patse Daly, Frank Kelsey, Chester Mooney and Leon Henrichon. The boys at home certainly don't know what they are missing because the boys here are having the "times of their lives."

An automobile rifle school has just been started for which men are trained to be expert auto rifle shots. The candidates up to date are Privates Louis Philip Aubin, Gordon Mooney, John Shaw and Arthur Palin. The boys, it is said, are making good. It is really remarkable how quickly the boys have taken onto the army life and how rigidly they live up to the rules laid down. There is never a morning that every man isn't out of bed at the first sound of the bugle blowing reveille. The boys seem to take a pride in doing things with a snap and dash.

## The 2 in 1 Washing Machine

gives the utmost in washer value at a minimum price.

This machine has provision for three extra tubs or baskets, has four positions for the wringer, and the clothes can be rinsed by the electric power in a separate tub.

Do not pay a long price for a washing machine until you have investigated the 2 in 1.

**A. E. Counsell & Son**

**FAIR PLAY and FAIR PAY**

Indifference to the welfare of your gas company is, in reality, indifference to your own welfare and the welfare of your community.

To continue to render its best service and at the same time to develop the growth and prosperity of your community, your gas company must be permitted to charge rates that will enable it to earn a reasonable interest on its investment and thus be able to attract new money for extensions and improvements.

Inability to do this not only cripples a service which is a daily necessity to you, but makes it impossible for your company to enlarge its plant and system to meet the growing needs of your community.

How will this affect your own comfort and convenience? How will it affect trade, real estate values, and the progress of the community in which your life is centered?

You know the answer.

You and every other real American want nothing so much as you want fair play. This is precisely what your gas company must have.
